

FS Status and Activities 2005

Bill Belton
USDA Imagery Planning and Coordination
Meeting
Salt Lake City, Utah
December 7, 2004

National Aerial Photography Funding

- FY 2004: \$1,071,000
 - Tongass NF Contract \$500,000
 - NAIP Projects \$571,000
- FY 2005 Recommended Funding: \$1,600,000
- FY 2005 Available Funding: \$ 700,000
 - Potential Carryover Funding: \$ 900,000
 - Potential NAPP Funding: \$ 278,000
 - Potential Total Funding: \$1,878,000

National Aerial Photography FY 2005 Planning

- \$700,000 End of Year Funds Obligated at APFO for NAIP Cooperative Projects
 - Will seek best return on investment consistent with Forest Service priority areas
 - Early Look indicates possible cooperative projects in Oregon, California, Montana, and Colorado
- \$278,000 NAPP Funding + any carryover available for NAIP, other cooperative projects, contracting via APFO

FSGEODATA Clearinghouse

- ArcIMS-SDE-based Internet service providing search, browse, and data delivery capabilities.
- Registered with Geospatial One-Stop, and as a node on the Federal Geographic Data Committee Clearinghouse Network.
- Housed at Ft. Collins USDA webfarm.

FSGEODATA Clearinghouse

- Co-administered by GSTC and the Remote Sensing Applications Center (RSAC).
- Fort Collins web services environment also provides Forest Service data to *The National Map* and map services to the Travel Access Mapping Project.

FSGEODATA Clearinghouse

- Content today --
 - Cartographic Feature Files (CFFs)
 - Softcopy Primary Base Series
 - Metadata
- Content to come --
 - DOQs
 - MODIS Active Fire Maps
 - Forest Health and Southern Research Station data

Welcome to the USDA Forest Service Geodata Clearinghouse — FSGeodata, this is the Forest Service geospatial data distribution service to the public. If you need any information or geospatial data from the earlier version of the FSGeodata Clearinghouse, please click [here](#). The FSGeodata Clearinghouse provides on-line access to selected geospatial information and metadata held by the Forest Service for National Forest System lands. There are three services to choose from:

Vector Data Gateway - Provides immediate access to data in the clearinghouse from a user driven geographic interface. Data includes Cartographic Feature Files (CFF). [more...](#)

Raster Data Gateway - Provides immediate access to data in the clearinghouse from a user driven geographic interface. Data includes Softcopy Primary Base Series (PBS). [more...](#)

MetaData Gateway - Provides immediate access to all of the metadata for both vector and raster data sets.
